Supporting communities to do the things they love

We're on a mission to improve social value in our communities and support schools to open their fantastic spaces for the benefit of local people.

We don't just talk about bringing communities closer together either.

We give 5% of our profits back in the form of grants and donations to grassroots sports and other community projects.

How to get started

We work at no cost to you and operate a simple income-split model based on the revenue generated from your lettings programme.

Kicking things off is quick and easy:

1

Contact us to arrange an introductory meeting so we can understand what you're trying to achieve from potentially outsourcing your lettings programme

2

We will then create a no-obligation proposal free of charge which contains detailed research into your local area and realistic financial projections on the possible returns for your school

3

If you like what you see an agreement can be issued within 24 hours of our partnership being agreed and your school lettings can be onboarded and handed over to us in 6-8 weeks

“The solution that works! Actihire have worked tirelessly to ensure the needs of the community and disability groups have been met. Their staff work around our requirements at all times, making the facilities an asset to both the college and the community.”
